

DIAMOND AND OTHER CARBON MATERIALS III

TABLE OF CONTENTS

SECTION 1 - DEPOSITION, GROWTH, PROCESSING

Homoepitaxial diamond film growth H. Okushi, H. Watanabe, S.-G. Ri, D. Takeuchi, S. Yamanaka	3
Codoping methods for wide bandgap semiconductors: application to the low-resistive n-type diamond H. Katayama-Yoshida, T. Nishimatsu, N. Orita	11
Supersonic cluster beam synthesis of nanostructured carbon-based materials and their in situ characterisation F. Siviero, C. Lenardi, E. Barborini, P. Piseri, S. Vinati, P. Milani	27
Diamond growth on c-BN temperature-controlled with Pt thin film-Cu plate thermocouple R. Urao	39
Effect of bias on the structure of carbon nitride thin films deposited by HFCVD S. Aizawa, M. Aono, D. Sakasegawa, N. Kitazawa, Y. Watanabe	43
Novel diamond-containing FGMs with CVD diamond films E.A. Levashov, V.G. Ralchenko	49
Synthesis and characterization of DLC film prepared by RF plasma CVD method S. Takeuchi, A. Tanji, M. Murakawa	57
Carbon nanotubes produced by HFCVD on catalytic layers T. Dikonimos Makris, R. Giorgi, N. Lisi, L. Pilloni, E. Salernitano, F. Sarto	63
Study on optical and electrical properties of amorphous SiC:H thin films for the window layer in high efficiency solar cells M.G. Park, M.C. Kim, W.S. Choi, B.Y. Hong, J.-H. Boo	71
Properties of carbon films obtained from C ₆₀ ion beams H. Huck, E.B. Halac, A.G. Dall'Asén, H. Ascolani, G. Zampieri	79

SECTION 2 - FILM CHARACTERIZATION

Structural analysis of carbonaceous solids, using an adapted reverse Monte Carlo algorithm T. Petersen, I. Yarovsky, B. O'Malley, I. Snook, D.G. McCulloch, G. Opletal	89
Bulk modulus measurement of carbon nitride thin films by the X-ray diffraction under high pressure E. Kamijo, Y. Aoi, M. Hisa, W. Utsumi, T. Watanuki, K. Yamaguchi	97
Investigation of the surface properties of fullerene films using the wetting method L. Ostrovskaya, V. Perevertailo, L. Matveeva, E. Shpilevsky, V. Ralchenko	105
ESR and Raman characterization of ion implanted hydrogenated amorphous carbon films M. Valakh, A. Konchits, B. Shanina, S. Kolesnik, I. Yanchuk, D. Carey, S.R.P. Silva	115
Characterization of CVD diamond films for mechanical applications L. Dall'Acqua, F. Cesano, M.G. Faga, R. Calzavarini	123

SECTION 3 - ELECTRONIC PROPERTIES

Sub-micron in-plane structures in H-terminated diamond J.A. Garrido, C.E. Nebel, M. Stutzmann, G. Rösel, R. Todt, M.-C. Amann, E. Snidero, P. Bergonzo	131
Spatial and temperature dependence of electron emission from nanocrystalline diamond films J.M. Garguilo, F.A.M. Köck, B. Brown, R.J. Nemanich	139
X-ray detection by CVD diamond G. Conte, M.C. Rossi, S. Salvatori, P. Ascarelli, E. Cappelli	151
Field emission characteristics of diamond and nanostructured carbon films M.C. Rossi, L. Petraia, S. Salvatori, G. Conte	159
Wettability behaviours of different quality CVD diamond films F. Pinzari, R. Giorgi, E. Cappelli, G. Mattei, P. Ascarelli	167
X-ray irradiated CVD diamond: field and temperature dependent transport G. Conte, M.C. Rossi, S. Salvatori, P. Ascarelli, E. Cappelli	175
Influence of ambient air on surface conductivity of CVD diamond films P. Renard, O. Elmazria, F. Benedic, M. Belmahi, H. Rinnert, M. Alnot	183

SECTION 4 - DEVICES, APPLICATIONS AND PROSPECTS

Future research needs for carbon based materials R.J. Nemanich, O. Auciello, J.L. Davidson, J.T. Glass, G.M. Swain	193
Diamond in electronic applications E. Kohn, A. Aleksov, A. Denisenko, P. Schmid, M. Adamschick, J. Kusterer, S. Ertl, K. Janischowsky, A. Flöter, W. Ebert	205
Diamond microelectromechanical structures (DMEMS) J.L. Davidson, W.P. Kang, T. Fisher, A.M. Strauss, K. Holmes, A. Wisitsora-At, M. Howell	217
Fabrication and application of Diachem® electrodes M. Fryda, T. Matthée, S. Mulcahy, A. Hampel, L. Schäfer, I. Tröster	225
Dosimetry improvement by diamond radiation detectors A. Fidanzio, L. Azario, A. Piermattei	237
AUTHOR INDEX	245
