

ADVANCED INORGANIC STRUCTURAL FIBER COMPOSITES IV

TABLE OF CONTENTS

SECTION 1 - FIBERS, MATRIX INTERFACES, INTERFACES

Mechanical and microstructural evaluation of oxide and non-oxide high performance ceramic fibres A.R. Bunsell	3
Thermomechanical properties of ceramic fibers for structural ceramic matrix composites H.M. Yun, J.A. Di Carlo	15
High temperature properties of CVD-SiC and CVD-diamond monofilaments G. Chollon, R. Naslain, R. Shatwell, P. May	29
Silicon carbide fibre extrusion - Manufacturing and tensile strength of fine sintered SiC-fibres F. Clemens, W. Buchser, T. Graule	39
Low-cost ceramic SiCN fibers by an optimized polycarbosilazane and continuous processing G. Motz, J. Hacker, G. Ziegler, B. Clauss, D. Schawaller	47
Rotating disk alumina precursor fiber formation process stability determination using image analysis R.M. Jancic, T.D. Volkov-Husovic, D.V. Mitrakovic, R.R. Aleksic	55
Development of boron nitride fibers with high tensile strength by the preceramic polymer route S. Bernard, M.-P. Berthet, D. Cornu, P. Miele, H. Vincent, J. Bouix	63
Optimisation of resin tooling processing - Aluminium filled and fibre reinforced epoxies P. Vasconcelos, F.J. Lino, R.J. Neto	71
Fiber-matrix interfaces in oxide-oxide composites M.H. Lewis	79

SECTION 2 - PROCESSING AND FABRICATION

Titanium matrix composites: discontinuous or continuous reinforcements? F. Dartigues, L. Albingre, Y. Le Petitcorps	91
Effect of engineering production parameters on the development properties of Al-base composite materials strengthened with "Saffil" fibres J.W. Kaczmar, A. Janus, A. Kurzawa, K. Naplocha	103
Carbon fibre reinforced copper-ceramic composites J. Schmidt, M. Frieß, W. Krenkel	113
Progress of continuous fiber reinforced silicon carbon composites L. Zhang, L. Cheng, Y. Xu	123
Fabrication of 3D-carbon fiber reinforced SiC composites by slurry infiltration and CVI joint process K. Suzuki, K. Nakano, T.W. Chou	131
Graded ceramic matrix composites by LSI-processing M. Frieß, R. Renz, W. Krenkel	141
New approach to short fibre reinforced reaction bonded silicon nitride (RBSN) A. Herzog, U. Vogt	149
Development of SiC/SiC composites by 2-step reaction-bonding method E. Tani, K. Kishi, E. Maeda	157
Ceramic composites materials from polycarbosilans E. Kablov, V. Minakov, S. Solntsev, V. Rosenenkova, N. Shvets	163
Fabrication of Nextel 720/alumina-mullite composite by CVI and subsequent heat-treatment Z. Chen, L. Zhang, L. Cheng, Y. Xu, G. Han	169
Materials for construction - Comparative study of setting of various cement based composites materials K. Bilba, M.-A. Arsene, A. Ouensanga	175

SECTION 3 - LAMINATED COMPOSITE STRUCTURES

Interfacial properties for enhancing thermal shock resistance in layered ceramics W.J. Clegg, L.J. Vandeperre, A. Kristoffersson, E. Carlström	185
Non-destructive analysis in composites plates submitted to low velocity impact A. Amaro, J.B. Santos, J.S.M. Cirne	193

Fatigue life prediction of composite laminates based on the critical direction theory J. Costa, J. Renart, N. Blanco, J.A. Mayugo, N. Gascons	201
--	-----

SECTION 4 - PROPERTY CHARACTERIZATION AND MODELLING

Fatigue behavior at high temperatures in air of a 2D SiC/SiC composite with a multilayered matrix P. Forio, J. Lamon	209
Thermal cycling of light metal matrix composites reinforced with ceramic short-fibres N. Hort, H. Dieringa, K.U. Kainer	218
Behaviour of Saffil-fibre reinforced ZE41 magnesium hybrid MMC in creep and thermal cycling H. Dieringa, N. Hort, K.U. Kainer	227
High-temperature oxidation of $\text{Si}_3\text{N}_4/\text{C}_f$ ceramic matrix composites I.Yu. Kelina, L.A. Plyasunkova, L.A. Chevykalova	235
Ultimate tensile strength as a function of test rate for various ceramic matrix composites at elevated temperatures S.R. Choi, N.P. Bansal, J.P. Gyekenyesi	243
Properties of carbon-glass-ceramic composite materials E. Kablov, S. Solntsev, D. Grashchenkov	251
Influence of carbon nanotubes and particles on reinforcement of Portland cement A. Madroñero, J.I. Robla	259

SECTION 5 - PRESENT AND PROSPECTIVE APPLICATIONS

Application of Tyranno sintered SiC(Al) fibre in aggressive atmospheres T. Ishikawa	269
SiC-matrix composites for applications in oxidizing atmospheres F. Lamouroux, J. Thebault, P. Diss, E. Bouillon, C. Louchet-Pouillier, S. Bertrand, J.-C. Cavalier	279
Recent developments in smart composites H. Asanuma	291
Ceramic matrix composite brakes W. Krenkel	299
AUTHOR INDEX	311
